Glacier Express

The slowest express train in the world

Travel on board of the famous Swiss mountain railway from St. Moritz to Zermatt or vice versa. The 8 hour panoramic railway journey takes you through the high Alps in the heart of Switzerland across 291 bridges, through 91 tunnels and across the Oberalppass at 2033 m above sea level. The Glacier Express takes you on the most beautiful route between the sights of Graubünden, central Switzerland and the sunny Valais region. Travel in comfort through the unspoiled natural beauty of landscapes rich in ancient mountain forests, peaceful Alpine meadows, rushing mountain streams and valleys with traditions and cultures that go back centuries.

Glistening mountains in summer, a snow-covered fairy tale landscape in winter, magical blossoms in spring and lush, opulent colours in autumn. The Glacier Express is an exceptional experience throughout the year but it's also a gateway to the rest of Switzerland with frequent rail connections to the rest of Switzerland from Chur, Andermatt, Visp and Brig.

In summer, three identical trains run daily between St. Moritz and Zermatt and vice versa. In winter one train in each direction. Each of these trains consists of two first-class panorama carriages and three second-class panorama carriages. In the middle of the train, between first and second class, there is a service car. Food is freshly prepared in the kitchen and the bar section has 24 standing places.

Comfort in the train

All Glacier Express trains are operated as non-smoking trains. Thanks to the oversized windows which extend into the roof the passengers have a perfect panorama view in both classes. All carriages are air-conditioned. More offers see page 15.

Themed weeks

During spring time and in the autumn culinary delicacies from the canton of Grisons and Valais will be featured on board of the Glacier Express. Details see page 24.

Basic text Glacier Express

A unique, 8-hour journey on the Glacier Express from St. Moritz or Davos across the Swiss Alps to Zermatt and the world famous Matterhorn.

291 bridges and viaducts, 91 tunnels, seven valleys – one fantastic experience! The panoramic Glacier Express meanders through a quintessentially Swiss landscape all the way from the Piz Bernina to the Matterhorn. Starting in St. Moritz or Davos, it first snakes along the UNESCO-protected Albula Line to Chur and then, after passing the rugged cliffs of the Rhine Gorge, Switzerland's very own Grand Canyon, climbs up to the Oberalp Pass at 2,033 m above sea level, catching its first glimpse of Valaisan sunshine at the end of the Furka Tunnel.

Towards the end of the 300-km-long journey, the world's slowest express train passes through the picturesque Goms Valley with its typical Valaisan-style wooden houses. Once in Zermatt, the huge panorama windows give guests fantastic, unforgettable views of the world-famous Matterhorn. So whether it is to see the peaks sparkling in the light of summer or buried beneath a thick blanket of snow in winter, whether it is to see the first flowers opening in the spring or the first leaves turning gold in the autumn – the Glacier Express is perfect no matter what time of year it is! We look forward to welcoming you!

The scenery will not be the only highlight of your trip, however; besides feasting your eyes, you can feast your palate, too. There is a wide range of freshly prepared specialities for you to choose from – all of them served at your seat, reservations for which are strongly recommended.
