## ZERMATT – MATTERHORN THE INDULGENCE DESTINATION.

**Zermatt, this is the most popular mountain village with the world's most photographed mountain. In the destination Zermatt – Matterhorn, which includes the villages Zermatt, Täsch and Randa, alpinists, ski fans, bon vivants and nature lovers meet.**

Fascinated, alpinists still climb the Matterhorn (4'478 metres above sea level) on the traces of its first ascender Edward Whymper, who managed to reach the mountain's summit via the renowned Hörnli grat in 1865.

Guests conveniently reach the centre of the alpine village by train. Zermatt has always been car-free. Walking is the transport of choice, both during summer and winter, or you can take a horse carriage or one of the small electric taxis that take the guests' luggage through the narrow streets to the hotels and holiday apartments. Zermatt is a pioneer for sustainability. Many enterprises (hotels, restaurants, cable ways e.g.) care since decades for a responsible handling of the resources like water, electricity, but also for the traffic and the technology of buildings e.g.

360 kilometres of ski runs await winter sports enthusiasts from early in the morning until late afternoon both on the Swiss as well as on the Italian side of the Matterhorn, where the mountain is called Monte Cervino.

The summer skiing area on the Theodul Glacier boasts 21 kilometres of runs with guaranteed snow. In other words: Zermatt offers 365 days of skiing per year.

But winter hikers and snow shoe enthusiasts can also enjoy the snowy, glistening landscape. In the summer time, one can choose to walk on more than 400 km marked hiking and walking trails.

Top quality gastronomy awaits the guests in the village, in the hotels and on the hiking paths and ski runs in the mountains: 17 restaurants combine a total of 242 Gault Millau points.

*Zermatt. No matter what®*

Many Zermatt hotels and restaurants are family-owned and confidently live their tradition, offering their guests - which include up to 80 percent regular guests of many years - high quality service. New hotels and also those with a history display state-of-the-art construction standards.

Many of these are characterised by alpine chic, combining stone, glass and often old and well-kept wood. For those who, apart from indulgence and exercise, also enjoy shopping, we recommend a peaceful stroll along the Bahnhofstrasse. In the evenings, guests and locals can choose from a large number of clubs, bars und dancing bars for long nights out.
